

Year 3: Extreme Earth

Key Questions: If you were going to move to a country, which was at risk of one of the extreme earth events, which one would you move to?

Critical Thinking Questions

What is the form of Earth?	How are volcanoes formed and their impact on surrounding areas?	How earthquakes occur and their impact on surrounding areas?
How tsunamis occur and their impact on surrounding areas?	How tornadoes occur and their impact on surrounding areas?	<i>What are some impacts of extreme Earth events on the lives of those living nearby?</i>

Helpful Information
