

To all you Parent Teachers out there, we continue to be impressed by you! Please see a quote below from a parent this week. Thank you for all you are doing for your children.

'We love seeing the newsletters and seeing what people are up to—it's a great source of inspiration.'

This family of three siblings have been creating their own rainbow art gallery with these stunning works of art! What a triumph! Clearly Fab Fridays continue to brighten up everyone's week even when the school is closed. Well done!

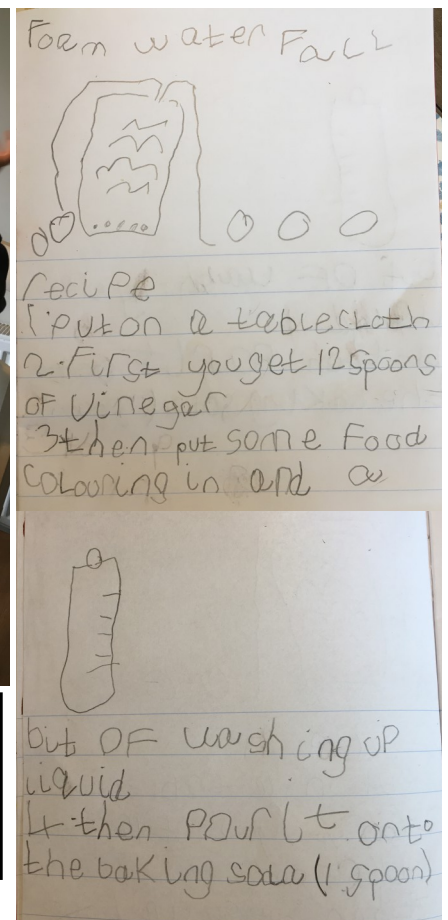

This family have been very creative with their learning! They have clearly been loving the Viking theme: carving runes, making Longships in the garden and out of fruit, designing and making Viking costumes for their toys and taking part in a scavenger hunt to find items that Vikings may have bought and sold on their travels. And if that wasn't enough, they have also made a little video demonstrating international trade in the Viking times! What great inspirational learning ideas to share! Well done!

Nothing like a bit of experimental science at home! This young chap has been busy, not just creating a chemical reaction but also writing up his experiment so that others can also have a go! Just follow the very clear instructions on how to make a Foam Water Fall. Very impressive piece of writing! Well done!

From flying high on kangaroo boots to the quiet and calm cooking of vegetable soup. Let's hope this year 6 pupil had the soup after jumping like a kangaroo rather than before!

It's not just the children that have been busy being creative at home! Miss Deakin has been cooking the most delicious looking cakes with her son and having fun with her recycling by turning them into garden art! Great fun to make! I wonder what you could create with your recycled packaging?

It's been non-stop for this brother and sister! They have been busy making peppermint creams (yum!), using a needle and thread to create felt woodland themed objects, creating their own fitness challenge (with the help of the new puppy), painting pebbles in support of the NHS and make very delicious looking chocolate cake (double yum!). What a creative pair!

Another impressive piece of writing to share! Here is a super piece of non-chronological writing created by one of our Year 3 pupils. Something to be very proud of! Well done!

EXTREME ANIMALS

There are so many animals in this vast world. In this report we will cover the fastest, smallest and biggest.

Fastest

- Bird: Golden Plover
- Land Mammal: cheetah
- sea mammal: orca

Chickadees can fly up to 70mph and can go 1000 in 3 seconds. They have 4 eyes as a sign of intelligence! Downy Woodpecker can travel an impressive 10000 feet. Peregrine falcons can fly at 100mph but that's not all they can dive an instantly 200mph.

Peregrine falcon

Biggest

- ostrich
- Elephant
- Blue whale

Elephants weigh up to 14,000 pounds. They can eat 500 pounds of food a day. Blue whales are the world's largest animals. An adult is 80 feet long and weigh 120 tons. Outstanding. The ostrich is an extraordinary bird. Male grow up to 9 feet tall and weigh 350 pounds. Also they sprint at 45mph.

Blue whale

Smallest

- Humming bird
- Bumblebee bat
- Sea otter

The bumblebee bat weighs 2 grams and has a wingspan of 30 to 40 millimeters as an adult. Sea otters weigh only 35 to 90 pounds. They sleep floating on their backs. A hummingbird only grows 3.5 inches long and weighs 0.15 ounces.

Humming bird

Taking the word creative to a new level! This Year 4 pupil has been busy building a den out of cardboard boxes, making stone ornaments using clay, using ingredients found at home to make his own lava lamp and, the one that has made me giggle, being creative with the toilet rolls! Good to have a keen sense of humour at these worrying times! Well done and thank you for making us smile!

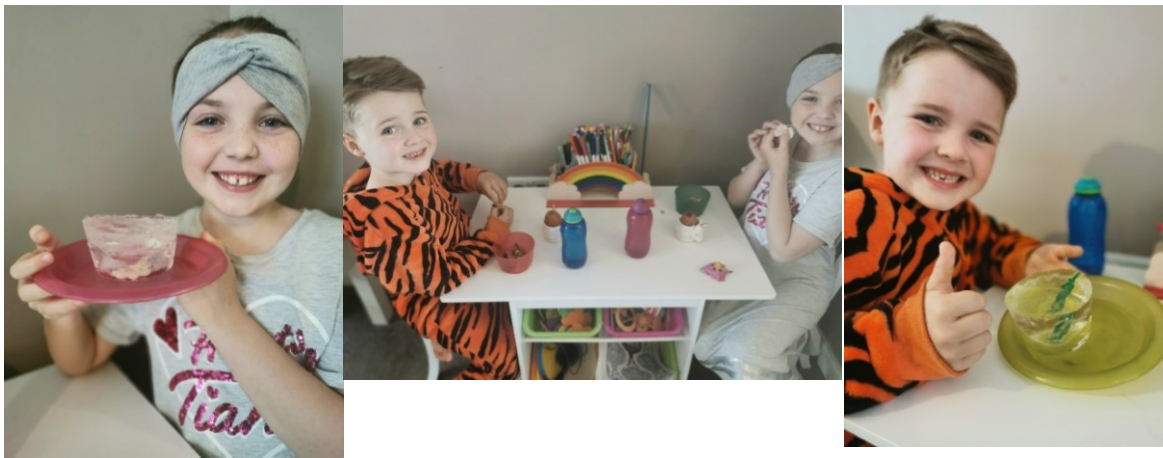

Reading The Magic Finger, building lego worlds and labelling body parts, bones and muscles has kept this young chap busy this week! Well done!

Inspired by her older brother's Edinburgh Project, this Year 2 pupil decide to show us her work on Kenya ready for when she joins us in Year 3 in September. Well done!

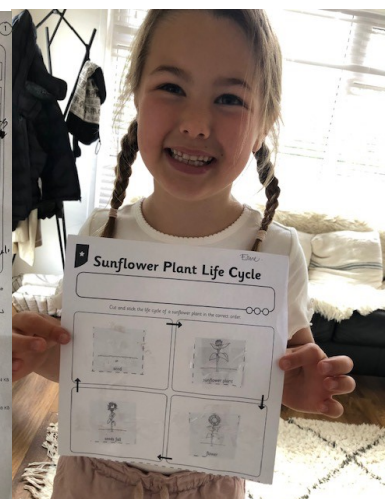

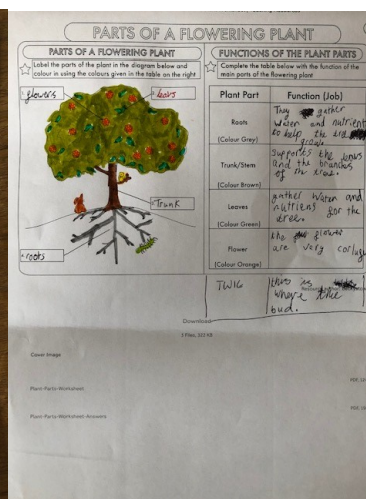

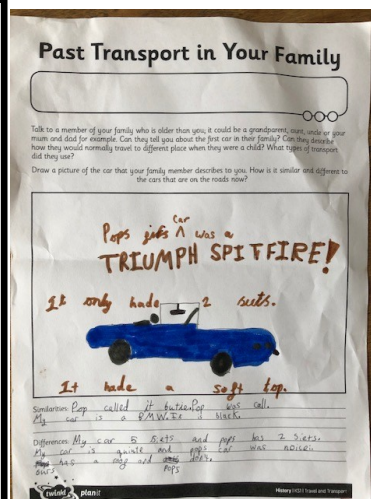

This brother and sister have certainly been testing out some new found art ideas—freezing fairies and toy soldiers in ice and filling an egg shell with water and petals and freezing it to create this beautiful work of art! The wonders of combining nature and frozen water! What a lovely idea!

This family of siblings were given the task of creating 3D shapes using cocktail sticks and fruit gums! Well done for managing to create your shapes before testing the shape building resources! I don't think the fruit gums would have lasted that long in my house! A fun idea to help teach the properties of 3D shapes. Well done!

Some more great examples of written work being done at home – some science and history work to be proud of. Grandad really enjoyed talking about his car to his Year 2 granddaughter.

Have you been wondering what happened to the chicks that were incubated in school last term? Well here are 7 of them—6 ladies and a rooster who has been given the name Sooty! Quite clearly these chickens have found their forever home with the beautiful 5 star accommodation built especially for them. If I was a chicken, this is definitely where I would want to come home to roost. The coop is big enough for the family to go inside and interact with the chickens. What a lovely way to spend part of your day. Lucky chickens!

Happy Birthday to this young lady who has clearly enjoyed indulging in the most delicious looking cake. We all hope you had a wonderful day!

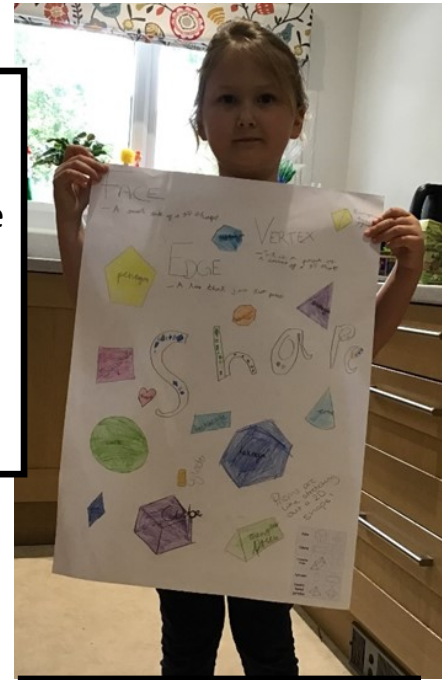

And here we have another one of our pupils enjoying their birthday with a very impressive cake to celebrate. Happy birthday to you from us all!

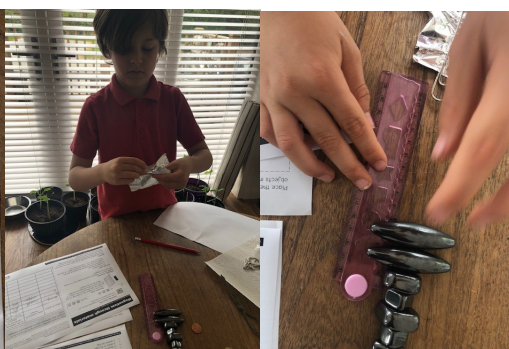

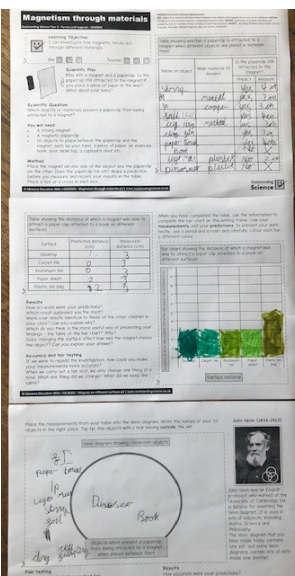

Here is one of our KS1 pupils holding a very impressive piece of maths work. She now knows all about vertices, edges and faces. Well done!

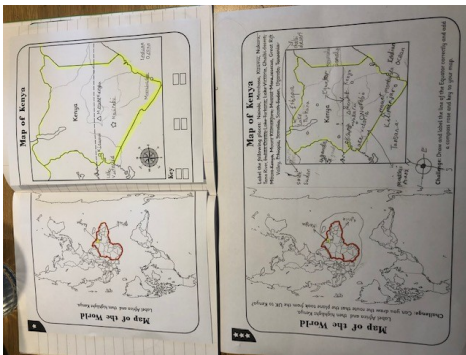

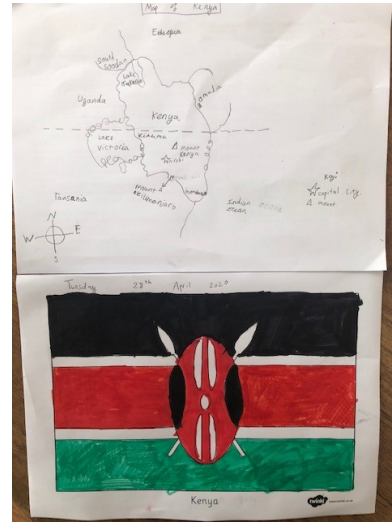

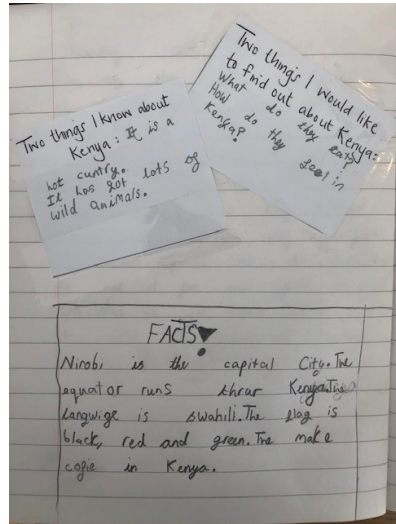

This Year 4 pupil and his big sister have been very busy printing these rainbow bags for the nurses at Treliske. These have been donated to the staff who have to change out of their uniform clothes after their shift. They are also helping their mum to make scrubs for nurses working on the children's ward and they are asking for any donations of brightly coloured children's bedding to enable them to continue the helpful work they are doing. If you would like to know more about this and who to get the donations to, please contact Stacey who is happy for you to contact her on this email address: staceyleanne555@gmail.com Thank you for all you are doing to help!

Making masks for the family—more skills to share from this talented seamstress!

This busy scientist has been finding out all about magnets and how the strengths of different magnets work through different types of materials. A very interesting investigation.

This Year 2 pupil has been enjoying finding out all about Kenya. A great combination of super writing and art. Well done!

This little Puffin has been very busy this week, creating his own pieces of artwork, baking the most delicious looking cakes, practicing his counting of big numbers and using the sunny days to enjoy his exercise outdoors. Well done!

A message from the Village Emergency Plan Group:

The emergency plan is supporting VE Day on Friday 8th May and we are asking the village to decorate their houses with red, white and blue. We are inviting families to have their own BBQ or picnic just outside their house (weather permitting) to celebrate the occasion.

If you have any pictures of your celebrations to share, please do email them to me for the next newsletter.

VE DAY

75TH ANNIVERSARY

A SHARED MOMENT OF CELEBRATION

8 - 10 MAY 2020

A message from Mrs Whomersley to all you keen recorder players!

If anyone needs any extra recorder music to play I'm very happy to e-mail some out if you let me know (I have already sent 'Sing a Rainbow' and 'Somewhere over the Rainbow' to the more experienced players)

We are loving your news! Please do keep sending your wonderful pictures in of what you are all getting up to. And if you are celebrating a birthday or any other special occasion, let us know so we can give you a shout out on the newsletter!

**Thank you for all you are continuing to do!
We miss you all very much!**
