

## Year 3: Extreme Earth

*Key Question: If you were going to move to a country which was at risk of one of the extreme earth events, which one would you move to?*

### Critical Thinking Questions

What is the form of Earth?	How volcanoes are formed and their impact on surrounding areas?	How earthquakes occur and their impact on surrounding areas?
How tsunamis occur and their impact on surrounding areas?	How tornadoes occur and their impact on surrounding areas?	<i>What are some impacts of extreme Earth events on the lives of those living nearby?</i>

### Helpful Information

### Vocab Pyramid

Tier 3	bedrock, crust, mantle, outer core, inner core, magma, tectonic plates, boundaries, destructive, constructive, Richter scale, seismometer,
Tier 2	topsoil, subsoil, eruption, active, dormant, extinct, tremor
Tier 1	Earth, planet, volcano, earthquake, tsunami, hurricane, flood, draught,
