

## Year 6 Quad Kids Athletics competition.

12th June 2026

Perran-ar-Worthal's Year 6 athletes represented the school at Carn Brae athletics track on Friday afternoon. They competed in a performance strand and a school games strand. It was an emotional afternoon, cheering for these dedicated students. Their enthusiasm, support for each other, their competitiveness and their sense of humour shone for the entire afternoon. It was a challenging event which included a 600m race, a 75m sprint, a vortex howler throw and a standing long jump. We witnessed so many talented and resilient performances, with some huge distance throws and extensive jumps! The 600m did not faze these children, and one altruistic year 6, actually turned and encouraged their teammate and completed the race alongside them. Thank you to each and every one of you for your brilliant racing and your positive attitudes; this will indeed be the legacy you leave us with at Perran-ar-Worthal. A huge thank you to Kim Dodge for driving some of the children to the event and staying to support and encourage. We stood proudly on the sidelines, cheering them all on. There are children here, whose confidence has grown enormously in the past couple of years and it was an absolute privilege to see them race with that confidence.

Results: The performance strand came 10th out of 17 schools on the day and the School Games strand came 5th out of 15! Great results from both strands. Well done all of you! Some epic throws by Jude and Ted sprinted the 600m with no one even close behind! Thank you to Hazel for your beautiful altruism! Thank you to the whole team for bringing the positive Perran-ar-Worthal spirit to the event!

Cross country training Summer 2026.

A huge shout out to this fantastic Wagtail who comes to cross country every Friday and encourages all the runners! Your high 5's are very much appreciated! Thank you to all parents who come and support these committed runners and to Bob Richards for working with Elijah on the course design. What a team!
