

Review of governor attendance, 2012-19

Data is taken from the Governors' Attendance Register.

The register excludes staff governors and visits made outside school.

Expected level of attendance for governors without committee chair responsibilities would be 6 governors' meetings and 6 committee meetings, times 10 non-staff governors.

Additionally, chairman of committees would have 6 further meetings. A total of 126

Total number of visits calculated using governor visits recorded on the paper version only. Philippa asked last year that we investigate using an online log (shared spreadsheet to update attendance). Doing the job this year, I would concur that we are very likely to be under recording and it feels somewhat inaccurate. It may well be that our newly appointed clerk will assist with keeping committee attendance well recorded, but non clerked meetings and informal meetings need also be listed if we want this document to reflect our work each year.
